Life's Answer

[Verse 1]
Time is precious and fleeting too
So much to say, so much to do
Will there be things left undone
When I hear the call that is to come

[Pre-Chorus]
Every hour of every day
I hear what comes my way
As I work and live my life
I am alert without strife

[Chorus]
How will you live
What will you do
When your life
Has answered for you

How will you live
What will you do
It's your life
You get to choose

[Verse 2]
I say, relax, don't come undone
There is time available for everyone
I'll listen when it is time
Until then I will carry on just fine
I need to plan and start a career
Put worries behind me, there's nothing to fear

[Pre-Chorus]
I will probably even build me a house
Stop renting and eating like a mouse
I don't need to rush my days
I can walk my steady ways

[Chorus]
How will you live
What will you do
When your life
Has answered for you

How will you live
What will you do
It's your life
You get to choose

[Verse 3]
This sounds like it's for the next generation
I'll focus on using the time I am given
To make the most out of what I have
A home, a family and a great laugh
Like a tithe, for every dollar give a dime
We are given a reminder to be aware of our time

[Bridge]
Before it is too late and all is gone
Work and play before life has moved on
Not one day wasted in the shade
Let what is meant arrive unfazed

[Final Chorus]
How will you live
What will you do
When your life
Has answered for you

How will you live
What will you do
It's your life
You get to
choose
